STEVEN AUDREY DAYE

Frontend Technical Lead

PROFILE

Frontend technical Lead with over 6 years of experience architecting and building high-performance, full-stack SaaS applications. My expertise lies in creating fast, resilient user experiences by implementing advanced patterns like Optimistic UI with client-side caching (IndexedDB), integrating generative AI APIs(Gemini), and securing applications with Backend-for-Frontend (BFF) proxies. Specializing in React, Next.js,and TypeScript, I deliver polished, production-ready solutions that solve complex problems and drive business goals.

PROJECTS

- CVSTUDIOO - AI-Powered Resume Builder Platform (https://cvstudioo.com)

Architected and developed a full-stack, AI-powered **SaaS platform** from concept to production, scaling to support over 1000+ registered users; engineered a **highly responsive**, **optimistic UI** using a secure **Next.js BFF proxy**, persistent client-side caching (IndexedDB), and integrated advanced services including the **Google Gemini API** and server-verified **payment webhooks**.

- Real Time Team Communication Platform (https://slack-clone-nine-murex.vercel.app)

Engineered a full-stack, **real-time communication platform** in the manner of Slack, using **Next.js and a Convex backend**, successfully **validated by 173 testers** and deployed as a **primary onboarding tool**; **architected** a feature-rich experience with **secure authentication**, group channels, and file sharing, all delivered through a scalable design system of **15 reusable components**.

PROFESSIONAL EXPERIENCE

2024 - Present

Frontend Technical Lead

Esseyi (Cotonou, Benin Republic)

- Led the end-to-end architecture and development of **cvstudioo.com**, a full-stack AI-powered SaaS platform, scaling it from concept to production with over 1000+ users (325+ active) in 2 months, while **mentoring junior developers** through code reviews and architectural guidance.
- Engineered a high-performance, resilient user experience by implementing an **optimistic UI** with persistent **client-side caching** (IndexedDB/Dexie.js) and a secure **Next.js Backend-for-Frontend (BFF) proxy** for all API communications.
- Integrated complex third-party services, including the **Google Gemini API** for generative AI features (resume analysis, content generation) and a

payment API, complete with a secure, **server-verified webhook** for handling real-time payment transactions.

2021 - 2024

Frontend Developer

Caravelo (Barcelona, Spain)

- Led the greenfield frontend development of the **Avianca Airlines subscription platform**, collaborating on user experience research to deliver the initial version from concept to launch and drove code quality and team velocity by **conducting peer code reviews**.
- Developed a scalable component library using **Vue.js and Storybook**, creating flexible, themeable components consumed across multiple high-traffic airline platforms (including Alaska Airlines, WizzAir, Avianca, Volaris, and Jazeera Airways) collectively serving over 2 million travelers
- Engineered the complete overhaul of the **Volaris Airlines payment system** and integrated multiple **PCI-Compliant** payment gateways (Stripe, RedSys, Mastercard API, Spreedly) on high-traffic airline platforms, securely handling transactions for a user base of over 1 million active customers

2020 - 2021

Fullstack JavaScript Developer

Sancrisoft (Medellín, Colombia)

- Developed and maintained full-stack web applications, building responsive user interfaces with **React.js** and creating robust server-side APIs and logic with **Node.js**.
- Designed and managed relational database schemas in **MySQL**, ensuring data integrity and seamless functionality across various application features.
- Actively participated in a collaborative remote workflow, contributing to the team's codebase through version control with **Git/GitHub** and engaging in peer code reviews to maintain code quality and standards.

EDUCATION

2016

Diploma in Software Engineering

Intercom Programming & Manufacturing Company (IPMC Ghana)

2013

Associate's Degree in Telecommunications Engineering

Higher Multinational School of Telecommunications (ESMT Dakar)

TECHNICAL SKILLS

Next.js (5/5) | MySQL (5/5) | Prisma (5/5) | Vue.js (5/5) | Node.js (5/5) | TypeScript (5/5)

React (5/5) | Redux (5/5) | Express.js (4/5) | MongoDB (4/5) | Generative AI Integration (4/5)

Jest (4/5) | Sequelize ORM (5/5) | TailwindCSS (5/5)

SOFT SKILLS

Technical Leadership & Mentorship | Cross-Functional Communication | Project Ownership

Complex Problem-Solving | Architectural Design | Adaptability & Resilience

User-Centric Mindset | Attention to Detail
